**RE: BEECHWOOD SOUTH EXTENSION PROJECT ADDITIONAL PAVING AGREEMENT**

Dear Mr. Wharton,

In accordance with the Clermont County Transportation Improvement District (CCTID)/Union Township Intergovernmental Agreement, executed December 11, 2007, Union Township desires to assist the CCTID in facilitating the development, implementation, and enhancement of a current CCTID transportation improvement project within the Township by providing funding to the CCTID in the spirit of fostering intergovernmental cooperation, to wit: the Beechwood South Extension Project and the repaving of certain local streets adjoining the Beechwood South Extension Project. The streets to be repaved with a standard 2-inch asphalt overlay are as follows (reference attached GIS Map):

1. Little Turtle Road
2. Brant Lane
3. Tecumseh Drive
4. Craig Road

In furtherance of our discussions in this regard, Union Township is committed to partnering with the CCTID in facilitating the paving of the above-referenced streets in connection with the Beechwood South Extension Project by contributing funding to the CCTID in the following manner. The Union Township Service Department has obtained estimated quantities for the proposed repaving project, with the maximum approved expenditure not to exceed \$60,000.00 (see attached Purchase Order, dated July 30, 2008). Union Township further understands that reimbursement will be provided to the CCTID up to the maximum amount upon completion of the stated work, satisfactory to the CCTID and County Engineer, and upon receipt of an invoice detailing the actual costs for the material quantities and labor furnished.

Once again, Union Township is pleased to partner with the CCTID in the furtherance of a safe, efficient, cost-effective, and reliable transportation network. I remain confident that this partnership will only further serve to enhance the strong working relationship enjoyed between Union Township and the CCTID thus far.

Sincerely,

Cory Wm. Wright  
Assistant Township Administrator & Planning Director
